DETAILED ACTION

Claim Rejections - 35 U.S.C. § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

Claims 13-14, 16-17 and 19 are rejected under 35 USC 102(b)/103(a) in view of WO 2000/04230 to Ansmann et al.. This rejection is set forth in the prior Office action paper number

Response to Arguments

2. Applicant's arguments filed on January 30, 2003 and February 12, 2003 have been fully considered but they are not persuasive.

Applicants argue that the PIT emulsion of the reference is not a water in oil emulsion but a oil in water one. Applicants argue that it is evident that the water is the continuous phase, as oppose to the dispersed phase, due to the large amounts of water, percentage, with respect to the oil phase, percentage. Applicants go on and argue that the lower limit of the mount of water in the emulsion is the minimum theoretical water amount/percentage for an oil in water emulsion and that ranges well above the lower range are exemplified. The examiner respectfully disagrees, while the examiner is convinced that for the upper range the composition is an oil in water

Art Unit: 1731

emulsion, for the lower range, i.e., in the 20s % the emulsion would revert to be a water in oil emulsion. The examiner contends that at the lower range the amount of water is too small to sustain a continuous phase, i.e., for the formation of an emulsion at the lower end the continuous phase need to be necessarily the oil and therefore, the emulsion is an water in oil emulsion. As to the arguments that the reference only shows water at the middle to upper range, this is no convincing because, an invention is not limited by its examples, but for it discloses to one of ordinary skill in the art. References are evaluated by what they suggest to one versed in the art, rather than by their specific disclosures. In re Bozek, 163 USPQ 545 (CCPA) 1969.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
